BRANDED

how it works

What size box do you need?

This is the basis for how we will price and build your box.

What's your budget?

This helps guide us to the correct style of box. If you're not sure, that's okay, as we get more information about your project we can get a better idea of a budget.

What's in the box?

This information helps us determine how to keep the items inside the box safe and presentable when building your box.

Do you need custom inserts?

Custom inserts will add a professional look to your final presentation, as well as safely house your items.

How is your box being presented?

Will your box be handed out in person or individually shipped to the recipients? This helps us determine how your items should be packed. If your box is being shipped we can design a custom shipping box to house and protect your beautiful box so it arrives safely and undamaged!
